

# A4

## Santint

# Automatic Dispenser

### Nozzle Closing System

Eliminate colorant stayed on nozzle, guarantee the accuracy of dispensing. Unique warming-up program, dispense correctly even after long interval. Automatic anti-block function, release customers from daily nozzle maintenance, which is hard sledding and time wasting and easily forgotten.

### Accuracy

Ingenuous screw lifting structure, upgrading the accuracy 10 times higher than traditional one, fully meet the demand of dispensing accuracy.

### Nozzle Design

Specially designed nozzle cleaning structure, prevent the splash of water when using traditional brush.

### Prevention

Piston shaft automatically calibration system, preventing damage or malfunction of machine by misoperation.

### Canister Positioning

Electrical & magnetic positioning system, helping canister positioning correct and quick.

### Software

Color Expert 2.0 dispensing software, powerful function while easy to use.

### Appearance

Attractive decorative side cover (option), customized color meets your individual requirement.

### Specifications

#### A4

Flow Rate	0.45 liter/minute
Canister Size	2.3 liter
Accuracy	1/384 Y (0.077 ml)
Pump Size	40 ml
Max/Min Paint Can Size	320 X 450 / 80X100 (mm)
Net Weight	182 kg
Canister Number	12114116
Stirring Speed	20 cycles / minute
Nozzle Diameter	3.0 mm / 4.2 mm
Pump Type	Piston pump
Can Table	Manual
Filling Colorant Height	1200 mm
Cleaning System	Automatic recycling cleaning
Power	220 V,50 HZ
Dimension	1405 x 805 x 945 mm (L x W x H)

## A4

- Attractive looking.
- The piston pump design with automatic calibration provides low cost maintenance.
- Free Color Tint software provided.
- Suitable for low or zero VOC colorant.
