

F102/A

MK 2

Trash Analyzer

To determine lint, trash and dust content within a sample of cotton fiber upto 100 grams. Also used to determine nonfiber content of synthetic fibers and to open and clean fibers for further testing. The analyser uses the carding principle with air separation of lint and non lint content. With wheeled trolley for portability. The Analyser Mk2 (Wool Model). To determine vegetable and other foreign matter content in raw wool, wool tops and waste and preparation of samples for fineness testing. Also suitable for determining the yield of high value fibers such as cashmere and angora, as well as determining non fiber content of long staple synthetic fibers. With adjustable static eliminator and wheeled trolley.

Specifications	F102/A
Weight	100 kg
