

# G206D

# Electronic Temperature & Humidity Recorder

A more accurate and sophisticated recorder than G206. Air is drawn over the sensing elements by an electrically driven fan. The mechanism allows a rapid reaction transfer to the circular chart of small changes in temperature and humidity. 7 day charts (100 supplied), electronic clock, and pens. 0-40 °C, 20-100 %RH.

Specifications	G206D
Weight	10 kg
Dimensions	370 x 170 x 360 mm (WxDxH)
Standards	M&S PG, ERT 60-1

## G206D

- A more accurate and sophisticated recorder than G206.
- Mechanism allows a rapid reaction transfer to the circular chart of small changes in temperature and humidity.
