# PANTONE Textile Color Systems

Fashion and home professionals worldwide recognize the PANTONE Textile Color System as the global communication tool for color specification. Today, hundreds of thousands of designers, product managers, merchandisers and quality control professionals rely on Pantone to ensure that their color selections for product development are communicated accurately. Communicate color choices with ease and efficiency. Quickly pinpoint shades within each color group with over 1900 shades to choose from arranged chromatically.

## Color Swatch Files

The ultimate creative tool for those who need immediate access to over 1,900 textile color swatches. Three-volume set contains all colors in a 2" x 2" removable swatch format. Each binder houses a range of color, from neutrals through warm and cool colors. Designers can create solid color palettes and combine for yarn dye and print combinations.

## Color Selector - Cotton

Compact reference book contains over 1,900 textile colors dyed on 100% cotton chips. This easy desktop reference is the ideal color locator for those who need to make quick color decisions.

## Textile Color Swatch Card- Cotton.

Individual 4" x 4" cotton swatch cards available in all colors provide the most accurate way for designers to specify their color choices. Each card is identified with the PANTONE Textile Number and name and can be cut into smaller pieces to send to multiple production locations.

## Color Specifier-Paper

New specifier book features six larger-sized, tear-out chips for each color, all in a single volume. Larger format provides greater visualization, ideal for attaching to design sketches.

## Color Guide

New larger-sized portable color-on-paper fan deck contains over 1,900 textile colors chromatically arranged for optimum viewing. Easy to bring along for sample shopping, client or vendor meetings and on-site reviews.

## Color chooser Kit

Now designers and stylists can have digital access to the updated version of the PANTONE Textile Color System. Their color preferences can be incorporated into most design software, with new support for Adobe® Illustrator® Optimized sRGB and HTML values enable improved visualization on screen. For Macintosh OS X and Microsoft Windows 98, 2000, ME and XP.

## Color Cue TX

Capture your color inspiration in the palm of your hand. Our new colorimeter lets you click on any colored material and cross match it to the closest PANTONE Textile Color.
