

# G212A1-B1

# Laboratory Air Conditioning Systems

Laboratory Air Conditioning Package Systems similar to models G212, but built in USA for sale throughout North, Central and South America to facilitate installation and after-sales service. Textile testing laboratories require "Close control" of temperature and humidity worldwide. This specially designed system ensures compliance with international standards. Two systems available to suit room volumes to 280cubic metres (9000cu.ft). Custom built units available for larger volume rooms. Digital display of temperature and humidity to control area at  $20^{\circ}\text{C}(70^{\circ}\text{F}) \pm 2^{\circ}$  and  $65\% \text{RH} \pm 2\%$  (or other conditions as required). Installation is not included, may be required. For final offer and recommendations, complete questionnaire.

Specifications	G212A1B1
Weight	318 kg
Dimensions	800 x 800 x 2375 mm (WxDxH)
Standards	ASTM D1776, DIN 50015, ISO 139/187, ERT 60-1, ITMF PGA
