

# M254

## Steaming Cylinder With Integral Steam Generator

Steaming Cylinder With Integral Steam Generator. To determine the shrinkage of unstressed fabric samples subjected to steaming in a closed chamber. Provided with a stainless steel fabric support frame to accommodate 4 samples and an automatic timer. Steaming Stability Template. The Steaming Stability Template is suitable for use with steaming cylinders when testing fabrics for relaxation shrinkage. It is used to mark the fabrics before testing using a benchmark of 250mm and to read shrinkage directly in percentage after testing.

Specifications	M254
Weight	45 kg
Dimensions	400 x 600 x 300 mm (WxDxH)
Standards	BS 4323, ISO 3005, M&S P8/P66, IWTO 29-76

### M254

- To determine the shrinkage of unstressed fabric samples subjected to steaming in a closed chamber.
