# Match Paint

When buying paint, today's customers have a lot of choices. The Datacolor PAINT™ family of feature-rich color matching systems gives them more reasons to keep choosing you. Only Datacolor PAINT™ has sheen determination, allowing you to match sheen as well as color. Datacolor systems quickly and easily match even hard-to-match shades, dark colors and glossy samples. Formulate colors to match virtually any sample. Help visualize chosen colors and accent shades. Provide speedy service through faster, better matching.
