Laboratory

Centrifuge Hydroextractor

Laboratory Centrifuge Hydroextractor. Remove excess water from dyed or washed fabric, thread, yarn etc before hot air drying.

Specifications	TS-1
Drum Dimension	160 × 75 mm (D×H)
Machine Dimension	220 x 360 x 370 mm (L x W x H)
Power Consumption	60 W
Revolving Speed	1300 rpm
Revolving Time	Setting by timer
Power Supply	220 V x Single phase
Machine Weight	14 Kg

TS-1

- Simple operation, requires NO technical skill.
- Low noise and low power consumption.
- Energy saving due to compact size design.
- Extractor drum is constructed from high grade stainless steel.
